

Key Investor Information

This document (KIID) provides key information about this Sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in the Sub-fund. We recommend you read this KIID carefully so that you can make an informed decision about whether to invest.

CB - ACCENT LUX - Multi Income

E EUR (LU1917328475), **Class E CHF Hedged** (LU1917328988), **Class E USD Hedged** (LU1917329440)

a Sub-Fund of CB-ACCENT LUX SICAV

The management company of the SICAV is ADEPA Asset Management S.A.

The Sub-fund is managed by BlueStar Investment Managers S.A.

Objectives and Investment Policy

Objective

The subfund's aim is to search financial markets for coupon yields and share dividends in order to obtain a positive return for the investor.

Investment Policy

The Sub-fund aims to achieve attractive bond returns, for example by taking advantage of capital gains on bonds that typically, but not exclusively, trade below par.

Investments in bonds may be in corporate or government bonds, without geographical limitations.

The Sub-fund will also invest in equities that have a demonstrated capacity to pay regular dividends.

The Sub-fund may also invest, on a secondary basis and up to a maximum of 10%, in investment funds such as UCIs and UCITS that invest in niche markets (frontier markets, cat bonds, convertibles, etc.) or use ETFs.

The portfolio of the Sub-fund will be invested within the limits set out below:

- a minimum of 25% up to a maximum of 100% of the net assets of the Sub-fund in bonds with an Investment Grade rating.

- a maximum of 60% of the net assets of the Sub-fund in bonds with a rating below Investment Grade; and a maximum of 10% in bonds with a rating below or equal to C.

- a maximum of 15% of the net assets in equities listed on the world markets without geographical (including developing or emerging countries) or sectoral limitations.

The Sub-fund may not invest more than 10% in contingent convertibles ("CoCos").

The Sub-fund will only invest in bonds listed on the main international markets; investments in asset-backed securities & mortgage-backed securities are not permitted.

Exposures in currencies other than the Sub-fund's reference currency should generally be hedged. However, a maximum of 40% of Sub-fund assets may remain exposed in a currency other than the reference currency of the Sub-fund.

The Sub-fund may also hold cash and use derivative financial instruments, such as futures, index options and interest rate options, both for risk hedging and management efficiency purposes.

The Sub-fund's reference currency is the euro (EUR).

Hedged Class

The class described herein is hedged against foreign exchange risk, as its shares are not denominated in the Sub-fund's reference currency. Such hedging implies additional risks and may not serve its purpose. More details are to be found under the heading "Hedged Share Classes" in "The Shares" section of the Prospectus.

Dividend Policy

This is a distribution share class. Dividends may include investment income, realized capital gains and/or drawn from paid-in capital.

Subscriptions and Redemptions

Shareholders may request redemption of the shares held in the Sub-fund on any business day (cut-off time 15.30 CET). The shares are redeemed at a price to be determined. For more detailed information on subscription and redemption procedures, please refer to the "Issuance and Delivery of the Shares" and "Share Redemption" sections in the Prospectus.

Investment horizon

Please note that the Sub-fund might not be suited for investors planning to redeem their shares within 3-5 years.

Risk/Return Profile

	Lower risk Potentially lower reward				Higher risk Potentially higher reward		
	1	2	3	4	5	6	7
E EUR	1	2	3	4	5	6	7
E CHF Hedged	1	2	3	4	5	6	7
E USD Hedged	1	2	3	4	5	6	7

Exposure to certain risks in the financial markets provides the opportunity to gain higher returns than those offered by a risk-free investment. In the scale above, Category 1 indicates a low risk of losing the invested capital, but also limited return potential. Conversely, Category 7 indicates a much higher risk of loss, and an equally higher return potential. Please note that the lowest category does not mean risk-free.

The synthetic risk/return indicator is calculated on historical data. However, past performance may not be a reliable indicator of the Sub-fund's future risk profile.

The indicated risk/return category cannot be guaranteed and may vary from time to time.

Risk category 4 (four) means that the capital invested in the Sub-fund is not guaranteed. The Sub-fund is exposed to a medium degree of risk and gains and losses are expected to be moderate.

However, the Sub-fund may be exposed to risks other than those considered to determine the risk category using the synthetic indicator. Some of those risks are listed below.

Credit risk: The risk that the security issuer will not be able to repay its debt.

Liquidity risk: The risk that a position cannot be sold at a reasonable price within the desired time.

Counterparty risk: The risk that a counterparty is no longer able to honour its contractual obligations.

Operational risk: The risk associated with Sub-fund management, arising essentially from potential misjudgments or misoperation.

Derivative risk: The impact of derivative instruments on the Sub-fund's risk profile, when such instruments are used to achieve, strengthen or reduce exposure to the underlying assets.

This Sub-fund is not necessarily exposed to all the risks listed above.

Expenses
