Charges taken from the fund under certain specific conditions

Performance fee: The performance fee is calculated on the lower of the average annual NAV of each sub-fund's share class and the NAV of each class on the valuation day. The performance fee is payable annually and amounts to 10% of the Net Asset Value outperformance measured against the high water mark. The high water mark is the highest Net Asset Value at the end of the previous reporting period or the opening Net Asset Value. In the Sub-fund's last financial year, performance fees amounted to 0% of the Sub-fund for Class A, 0% of the Sub-fund for Class B, and 0% of the Sub-fund for Class C.

These charges are intended to cover the Sub-fund's running costs, including share marketing and distribution expenses. They reduce potential investment performance.

Entry and exit fees match the maximum rates applicable to the capital invested in the Sub-fund. In some cases, a lower rate can be applied. For more detailed information, investors should contact their financial advisor.

Entry fees are equal to 0% for shares of class A and B; for class C shares the rate is 0%.

Current expenses are based on the costs for the last 12-month period ended in December 2021 and may vary from year to year. They do not include portfolio transaction costs, except for entry or exit fees paid at the time of purchasing or selling the shares of another collective investment undertaking.

For more detailed information on expenses, please refer to the "Charges and Expenses" section of the Prospectus of the open-ended investment company (SICAV).

Past Performance

Historical performance is not indicative of future returns.

The reported performance takes into account current expenses but not entry and exit fees charged at the time of purchasing and redeeming SICAV's shares.
